Can't face the music so you pin that badge  
No days accusing if you pin that badge  
Rip up the ticket 'cause it ain't your jag  
Don't wanna pick it case the roots go bad  
You'll be promoted if you pin that badge  
Love and devoted if you pin that badge  
Chest full of medals and a desk to match  
A pretty woman and a semi detached

Can't play your guitar so you pin that badge  
First band has cut you so you pin that badge  
You fit the picture but you sing so bad  
Pick out a window or a taxi cab yeah!

Not me not mine  
Got myself an alibi I think you'll find  
Step back, less flack  
Two weeks later and it ain't so slack  
You watch I've learned  
Keep your nose clean and you don't get burned  
Too late, loose bait  
Beam that halo when the heads count for judgement  
day

You'll go to heaven if you pin that badge  
Stay lucky seven if you pin that badge  
Skip past the devil as he turns his back  
Live in the middle of an angel patch, yeah!

Shit at the office so you pin that badge  
Sniffed all the profit so you pin that badge  
Say you ain't bothered and it ain't your bag  
You'd still be off it if you never had yeah!

Not me not mine  
Got myself an alibi I think you'll find  
Step back, less flack  
Two weeks later and it ain't so slack  
You watch I've learned  
Keep your nose clean and you don't get burned  
Too late, loose bait

Beam that halo when the heads count for judgement  
day
