I can't lie and say i don't hate you
You ever make me feel any good about me
Its too long now since you and me showed faith
And you shouted, wont you stay forever young, alright
ooh

liii, i don't want you anymore, i don't need you anymore
i can't see you anymore im drowning around you oh,
you make me feel no good, i feel empty and alone
wont complain about you now, it's over

All my life i chose to accept you
Other tigers, come and go throughout the night, the
night, the night, the night
And oh but your hair, you be to stay the way you are
I can't follow, in your foolish ways, again, my love

Cos i don't want you anymore i don't need you
anymore, i can't see you anymore, im drowning around
you, oh, you make me feel no good, i feel empty and
alone wont complain about you now, it's over
X2

Ooh, had enough of it all, too now, oh now, lalala,
enough of it all
