is it enough for my baby to hide
is it enough for my baby to hold you down
i got a feeling that you want me tonight

now i am certain that i kissed you tonight
with the tall tall buildings and dim street lights
i got a feeling that i had you tonight

so come on out baby come on out

so i leave you lying on the floor
with this other girl i think you know
that you want somebody round here

who can help you who can help you out

coz i i'm loving every minute with you
i'm loving every minute with you
i don't want anybody else around
i don't want anybody

so i follow through this vacant spot
you call this pleasure
well you gonna wake up and smell this mess
you gotta this im tempted by this

i pull myself beside the water
i throw myself beside the water
i throw myself beside the water
to hold

coz i i'm loving every minute with you
i'm loving every minute with you
i don't want anybody else around
i don't want anybody

you keep me ok
you keep me ok
you keep me ok
im fair
you keep me ok
you keep me ok

you keep me ok
im fair

coz i know you know
coz i know you know
coz i know you know

you and i those other stars
next in line, next in line
oh i want you high and complete
after dark after dark

you and i those other stars
next in line, next in line
oh i want you high and complete
after dark after dark

coz i i'm loving every minute with you
i'm loving every minute with you
i don't want anybody else around
i don't want anybody
