I'm excited to be with you x2

Latches off the lie  
I'm running from  
In my life  
Love you wanna change  
Take it so you're all alone for  
A long time

It's love you had the love you had  
a long long time  
I can't figured out why  
You don't leave mine (or need mine..?)

I'm excited to be with you x2

Love you wanna change  
Take it so you're all alone now  
I can't survice you anymore  
My hand is getting very cold (???)  
You're mine now you're mine

I'm excited to be with you x2

Ooh i know i know it's only what you wanna ask
