[Rapper Big Pooh]

Yeah, it's your boy Rapper  
With a little post-game commentary  
Y'knahmsayin? We done dropped The Minstrel Show  
already  
We dropped The Chittlin Circuit, I dropped Sleepers  
'Te dropped Foreign Exchange, we dropped The  
Listening  
But I don't know if you muh'fuckers is listening man  
I don't know if you muh'fuckers know, check it, yo

Pooh's a beast, LB make shit for the streets  
Fanfare before every release, most critically acclaimed  
Niggas try and maim the name and leave us outside  
standing in the rain  
No umbrella, no jacket, no slicker  
I told y'all no turning back, I am NOT that nigga  
It's no back peddling, muh'fuckers meddling  
Even your team saying shit that's unsettling

[Phonte]

And now we bout to settle it cause on the inside we  
outsiders  
But they could never out-move or out-ride us  
All day and all night it don't stop nigga  
Get your sunblock nigga, you can't outshine us  
In this young game me and Pooh are oldtimers  
But we, brought it right back to the dirt like coal miners  
I mean, brought it right back to the streets with no  
problem  
Now that, look on the face of your peeps is so solemn

[Rapper Big Pooh]

So bitch niggas do what you must, I do what I can  
I'm just a man with a pen in his hand  
Writing down everything that I'm saying  
Feel like I'm running through Sam

Running in place on stage like I'm Sam  
Boy stop, cut it, package it up  
Ship it out cause the people gon' love it

If it's bullshit you covered, I am not that kind  
Get low, get back to the grind

[Phonte]

With no time to sit back and recline cause it seem like  
each time

We critically acclaimed but commercially declined  
And now, I'm inclined like a bench press to speak my  
mind

And my interest about this music  
Everybody keep asking 'Why the fuck y'all do this?'

Keep rolling with the punches and bruises  
I tell 'em that until we stop losing, believe that  
I'ma show boat on these tracks like Carnival Cruises  
nigga

I give the mic conclusions, oops that's concussions  
Niggas this the movement, playing Uncle Ruckus  
Too scared to touch us, screaming out 'Don't trust 'em'  
New niggas over there is nothing

This is the last time I'll address y'all cons  
On the down low, I think all of you niggas is twans  
Holding hands late night by the pond, 2006  
muh'fuckers it's on  
Just like that, let's go

[Rapper Big Pooh]

Top notch, hot shots  
LB's at the door, knock knock  
Break windows and padlocks  
Phonte, Big Pooh, Topshop  
Top notch, hot shots  
LB's at the door, knock knock  
Break windows and padlocks  
Right now muh'fuckers just watch
