Bill Payne

Livin' in strange dreams

Takin' prescribed medication

Where will i take me, where will it take me

My vision's all marred by a careless

Chance visit on the part of me

Cat fever, I got cat fever

My breathin is harder sittin in back of the theatre

When will he make

Forgot about fixin the leak in my faucet

What come over me

I'll let my dogs loose prayin' that they

Will protect me

Give me a bullet, one silver bullet

I won't let them get me 'cause those

Demon figures are after me

Cat fever, I got cat fever
