Well the night that I got into town
Was the night the rain froze on the ground
Down the street I heard such a sorrowful tune
Comin' from the place they call the Spanish Moon

Well I stepped inside, and stood by the door
While a dark girl sang, and played the guitar
There was hookers, and hustlers, filled up the room
I heard about this place they call the Spanish Moon

One false step, you get done in
It's a cold situation
Don't care who, you could all face ruin
You could lose it all down at the Spanish Moon

Whiskey, and bad cocaine
Poison get you just the same
And if that -- that don't -- kill you soon
The women will down at the Spanish Moon

Well I pawned my watch, and I sold my ring
Just to hear that girl singing (ooh who)
I don't care who, you could all face ruin
You can lose it all down at the Spanish Moon

Whiskey, and bad cocaine
Poison get you just the same
And if that -- that don't -- kill you soon
The women will down at the Spanish Moon

Well I'm waitin' for something to take place
Something to take me away from this race
'Round city to city, town to town
Runnin' around in the shoes of a clown
And that desperate, no count, desperado
A thief of love, my business is the street
I be shakin' 'em down
In old Colorado
Texas she's nice, but Georgia's oh so sweet
Steal away with me darlin' your lovin' just can't be beat
So it seems that the world keeps on turnin' but so what

I don't doubt it, it just keeps on the move
You're a dream, and that's all that I ask for
So well now, I'm wonderin' just how I'm gonna tell it to
you
Skin it back (skin it back)

Somethin' real, somethin' to feel
I can't find a soul who'll take on this mess
It's those rock and roll hours, early graves without
flowers
Please darlin' put my mind at rest
I'm beggin' whoa darlin' put my mind at rest
So it seems that the world keeps on turnin' well so what
I don't doubt it, it just keeps on the move
You're a dream, and that's all that I ask for
So well now, I'm wonderin' just a-how I'm gonna tell it to
you
Skin it back tell it to you
Skin it back tell it to you
Skin it back tell it to you
