Well she's the kind of girl that you dream about
Got the big blue eyes that'll knock you out
Got a hand on your wallet, and a smile on her face
And a heavenly voice, that says let's go to my place

Well she knows what she wants... she's a woman in love
And she wants what she knows... she's a woman in love
A whole lotta money, and a passel of clothes
No one got to tell ya... she's a woman in love

She's about as hot as a smokin' gun
A Saturday night special, she packin' plenty of fun
She got me sweatin' bullets on a cold Winter night
I got one in the chamber with the safety off
You know I feel all right

Well she knows what she wants... she's a woman in love
And she wants what she knows... she's a woman in love
A diamond necklace and a string of pearls
No one got to tell ya... she's a woman in love

She's a hard workin' girl, spends her days on her feet
She got the pulse of the office, never skips a beat
But don't you know it's a shame, yeah it ain't fair
She works twice as hard as the boys upstairs
She put in more hours for half the wage
Ain't no wonder this girl's in a rage

Well she knows what she wants... she's a woman in love
And she wants what she knows... she's a woman in love
A whole lotta money, and a passel of clothes
No one got to tell ya... she's a woman in love

Well she knows what she wants... she's a woman in love
And she wants what she knows... she's a woman in love
A diamond necklace and a string of pearls
No one got to tell ya... she's a woman in love
