

Little Jackie "Black Barbie"

Visit "[Black Barbie](#)" on MotoLyrics.com

I'm just
Like black Barbie
The life of the party
I light up the TV
Arrested for D-WI's
(?) the slammer
Did time
Without glamour
Time stood still
Without my pain
Kill pills
Don't need a lawyer
I got Diana Sawyer
She'll interview me
And prove
That I'm not guilty
I'm a reformed slut
I'm a much better woman
After
The twelve step program
And now
I can drink again
Cheers
To my publicist
For making me
Look like an angel
Cheers
To the media
I'm back form hell
With a story to tell

Before
I'd make believe
I'm a celebrity
All the boys
Wanna get with me
I am too sexy
I'm black barbie
Up all night having fun
I love to party
Just like the white one
I believe in make believe

I believe in making me
Black Barbie
I love to party
Up all night having fun
Just like the white one

I live the simple life
I am the socialite
I got no appetite
Ain't got no cellulite
Got a disorder
I eat all the time
And party the (?)
That's why
I stay so thin
Yeah never ever
Had to watch my weight
Just call my publicist
She'll get
My story straight
Went from
A size 8 to a 0
Just like magic
I'm a weight-loss hero
Bon appetite
I promise I eat
I'm a mess
In a designer dress
I've been
So distressed
I confess
But there's
No such thing
As bad press

Before
I'd make believe
I'm a celebrity
All the boys
Wanna get with me
I am too sexy
I'm black barbie
Up all night having fun
I love to party
Just like the white one
I believe in make believe
I believe in making me
Black Barbie
I love to party
Up all night having fun
Just like the white one

Ah
Cool, hot
I'm cool, I'm hot
I'm cheery Chimmy?
And so slim
I live in a perfect world
I live in a perfect world
I live in a perfect world
I live in a perfect world

Before
I'd make believe
I'm a celebrity
All the boys
Wanna get with me
I am too sexy
I'm black barbie
Up all night having fun
I love to party
Just like the white one
I believe in make believe
I believe in making me
Black Barbie
I love to party
Up all night having fun
Just like the white one
