"Petal From A Faded Rose"

Here's a rose from the garden where the bloom of
romance grows
But I'll keep one part near my aching heart just a petal
from a faded rose
Love is sweet in the morning when the breeze of
summer blows
But will fade and die when the winter's nigh a petal
from a faded rose
[fiddle - steel]
Now our love is a mem'ry where it's gone nobody
knows
But I'll hold so dear as a souvenir just a petal from a
faded rose
I will live with the roses where the stream of mem'ry
flows
And each time I dream a tear will gleam on the petal
from a faded rose
