"The World Should Revolve Around Me"

Visit "[The World Should Revolve Around Me](#)" on MotoLyrics.com

I take it in stride one day at a time,
If I ask no questions I hear no lies,
How come blessings only come in disguise,
I try to emphasize as I vocalize,
Aint nothin gunna get between me and my flow,
Aint nothin gunna come between me and my afro.
My man just left what do ya know,
Easy come easy go,
He came out of the blue,
And went right back into it,
He had to forfeit cause he couldnt get with it,
Called it quits and when he split
He said he didn't have time
For my juvenial bull shit,

I've had enough failed relationships
I don't get far cause I'm not equiped
I believe that the world should revolve around me
I'm to the point of a partnership,
It wont be long till I start to trip,
Yes sirr-e the world should revolve around me,

There's only one me in the galaxy,
I am an indangered species,
This kind of flower don't grow on earth
Just lettin ya know for what it's worth
This kind of action can cause a depression,
so I bide my time with philosophical questions
Not for nothin but what came first
The chicken nugget or the egg mcmuffin
I got talent and I got tits,
I know I'll find another guy that wants to get with it,
I'm not convinced that I'm a
im not convinced that im a big fat bore
One mans pleasure is another mans chore,

I've had a lot of failed relationships,
I don't get far cause I'm not equipped
I believe that the world should revolve around me,
I'm to the point of a partnership
It wont be long till I start to trip,
Yes sirr-e the whole world should revolve around me,

I know I rock and what I got is hot,
You know I got alot,
Cause all that trippin youve got to stop
Before you know it your ass be droppin
In turn with my biological clock,
Since I never grow old no,
my honeys always in stock, so
Keep screwin that bitch from down the block,
I don't need you around I know I rock,

I've had a lot of failed relationships,
I don't get far cause I'm not equipped,
I believe that the world should revolve around me,
I'm to the point of a partnership,
It wont be long till I start to trip,
Yes sirr-e the whole world should revolve around me,

I've had a lot of failed relationships,
I don't get far cause I'm not equipped,
I believe that the world should revolve around me,
I'm to the point of a partnership,
It wont be long till I start to trip,
Yes sirr-e the whole world should revolve around me
