(Kent Westberry - Jimmy Dickens)

Handle with care please treat her gently
Don't break her heart like I did before
Don't do what I did, I was unfair
Please love her for me but handle with care.

--- Instrumental ---

Hold her forever don't let her go
You might lose her like I did a long, long time ago
I've hurt her so deeply, left her in despair
Please love her for me but handle with care.

--- Instrumental ---

Don't do what I did I was unfair
Oh, please love her for me but handle with care...
