"I Love Lucy Brown"

Visit "[I Love Lucy Brown](#)" on MotoLyrics.com

They tell me Homer Jones was huntin' bears
When a big ole grizzly killed his favorite hound
The grapevine says a mob has plans of burning down
our town
But it don't worry me cause I love Lucy Brown
I sifted many hearts before I found a perfect pearl
To hold my hand while travelin' through this world
So let the sun come up and shine or let the sun go
down
It don't worry me cause I love Lucy Brown
[steel]
Received a letter from the folks today
Locutus eat the corn crops to the ground
The morning paper said that beef went up ten cents a
pound
But it don't worry me cause I love Lucy Brown
I sifted many hearts before...
It don't worry me cause I love Lucy Brown
