(Dee Moeller)

I could see it in your eyes when you look at me
I could feel it across the room
You'd fight for heaven and just didn't make it
I understand it I miss it too.

Lonely people find lonely people
Misery needs company
Lonely people find lonely people
I can't give much but if you want me
You can have what's left of me.

--- Instrumental ---

Lonely people find lonely people
Misery needs company
Lonely people find lonely people
I can't give much but if you want me
You can have what's left of me...
