The Choir - Takin' the Universe In

I wanna hear the ocean with your ears  
Taste the salt of my own tears on your face  
I wanna dream the dreams in your head  
When we wake up and we're not dead  
It's a good day  
Ah, it's a fine day  
I'm takin' the universe in, I'm takin' it all in  
Discoverin' a parallel world of experiences  
I'm takin' the universe in through your senses  
I wanna feel the raindrops on your skin  
Smell the lavender right into your nose  
I wanna run with you feet across the lawn  
Turn your sprinkler on  
Baby, come close  
I wanna get closer  
I'm takin' the universe in, I'm takin' it all in  
Discoverin' a parallel world of experiences  
I'm takin' the universe in through your senses  
I want to ride the train that keeps rumbling your floor  
I want to feel the draft that seeps under our door  
I want to be there for your hereafter and your here  
before  
To kiss the honey on your tongue  
See the glorious morning sun through your eys  
I wanna share the hope in your heart  
Dance with the skeletons in the dark of your mind  
Baby, I love your mind  
I'm takin' the universe in, I'm takin' it all in  
Discoverin' a parallel world of experiences  
I'm takin' the universe in through your senses
