One to many goals
The measure of your worth
Can sink your weight in gold
Sat by the ivory sail
The further out you look
The further out you'll be

It's not enough to set the curve
With nothing ventured, nothing learned
The words I've said agin, still die

I'll belong to you, it's how it's meant to be

Settle on your own
Sweeping dust from stone
With the letter "ohm"
Back where the hours roam
The simplest things they buy the thrill
Just by noticing at will

It's not enough to set the turn
With nothing ventured nothing learned
It's how it's always been

(In Portuguese)
E onde a sorte ha de te levar, saiba o caminho e o fim
mais que chegar
E quiera o dia ser, gentil a tua mao, aberta pra quem e

I'll belong to you, it's how it's meant to be
It's how it's always been
