Its hard to say, but I want to stay a while, make you smile...as lonely goes. And it's hard to say but I know, that it's been awhile since you've smiled...and so it goes. it's hard to reach the point, when the one you have next to you is the one you want there forever. And since you left, I see your face, at the most awkward times and it's all I know. 7 years with you. 7 dreams come true. And my life without you? Is life without you. Come on, won't you stay awhile and watch me put my foot in my mouth? Come on...and when you say you don't know? I cut my throat out.
