I didn't like you much
Can't remember how we ended up
Getting back in touch
You made me change my hair
Just to make me change it back again
When fashion's in the air

Don't get me wrong
You weren't the first girl that I ever kissed with tongues
But you were the best
You let me touch your chest
Cause I saved you twos on my last cigarette

I saw you on the underground
You smiled at me and turned around
Now love
This must be love
We got it on behind the station
Let's avoid this situation
Now love
This must be love

I couldn't work you out
You threw my CD's away
Got out our photos cut me out
And you just carry on
You tell all your mates, that you were right
And I was always wrong

Don't get me wrong
You weren't the first girl that I ever kissed with tongues
But you were the best
You let me touch your chest
Cause I saved you twos on my last cigarette

I saw you on the underground
You smiled at me and turned around
Now love
This must be love
We got it on behind the station
Let's avoid this situation
Now love

This must be love

You said that I was too fat
I said that you were too thin
You kissed me right on the lips
Then kicked me right in the shin
You said well do you love
I said well I think you're fit
You said we can't carry on
If you cannot commit

I saw you on the underground
You smiled at me and turned around
Now love
This must be love
We got it on behind the station
Let's avoid this situation
Now love
This must be love

This must be love
I saw you on the underground
This must be love
We got it on behind the station
