Well I know this girl
She isn't very nice
Well the thing with this girl
There's something about her eyes
She drinks southern comfort in a northern style
Leaves a message on my voicemail "call me back on
my mobile"

I'm not gonna call her back no (I'm not gonna call her
back) x 3
I'm not gonna call her back no, not gonna call her back!

Well it seems a pretty distance, It seems a little far
I'm sure I stored her number onto my sim card
I'm intercontinental when it comes to girls
But I'm not gonna make a phone call
When she's the other side of the world

I'm not gonna call her back no (I'm not gonna call her
back) x 3
Im not gonna call her back no

So I'll carry on this way,
Because it seems a little easier to ignore her call
yesterday. OH-OH!

I'm not gonna call her back no (I'm not gonna call her
back) x 3
I'm not gonna call her back no, better call her back!
