CURIOSITY (KILLED THE CAT)
WRITER BEEB BIRTLES

Sometimes I think I'm just a crazy cat, running around
don't know where it's at, getting confused with my way
of life, that's when you say now you cut that jive. Right
now, right now. You keep this flame I have alight in me,
and with this cat it's curiosity, that keeps me hanging
on night and day, surprisingly again I hear you say.
Guess what, guess what. Curiosity killed the cat, I'm
telling you I know where it's at, love is everywhere to be
found, open your eyes and look around. You You You ...
Yeah Yeah Yeah ... Some things you say take me by
surprise, I like your style so give me your advice, send
me the truth and I'll always be, singing your song with
you in harmony. That's right, that's right. Curiosity
killed the cat, I'm telling you I know where it's at, love is
everywhere to be found, open your eyes and look
around. Curiosity killed the cat, I'm telling you I know
where it's at, love is everywhere to be found, open your
eyes and look around. You You You Yeah Yeah Yeah
Aah Aah Aah Ooh Ooh Ooh
