FALL FROM PARADISE

WRITERS BEEB BIRTLES, GRAHAM GOBLE

Down by the Jordan, it's early in the morning the sun is
in the sky all the people pass by there's magic in the
air, some stop to stare at a man who says he cares
People cam from miles to hear what he had to say
some of them believe in him and some just walked
away He tried to explain, a fall from paradise was
meant to be disbelief showed in their eyes, drowning
out his distant cries "I'm telling the truth to you brother
telling it true to you sister go tell the truth to the others
... all over the land" Now we're here on the planet to
live, we're able to love and able to give there's a lot
going down, some win and some lose still we're able to
choose But think of the times you cry in the night
kicked through the years there is no choice we have to
fight Through it all the world goes on, it's another day
people rushing to a fro, counting hours as they go I
tried to explain our fall from paradise was meant to be
it's written down for all to hear, thers's not much time,
the time is near "I'm telling it true to you brother telling
it true to you sister go tell the truth to the others ... all
over the land" Yeah, Yeah
