IT'S NOT A WONDER
WRITER GRAHAM GOBLE

When I'm down, you're always there just to see me
through you understand everything that I do it's not a
wonder that I care for you And so babe, it's only fair we
should hold on tight please be careful just to follow the
light I promise everything will be alright Oh, there ain't
nothing sadder than missing so the one you love and
there ain't nothing truer than thoughts of love I'm
thinking of When you're down, I will be there, you can
count on me it's just so easy anyone can see it's not a
wonder that you care for me Oh, there ain't nothing
sadder than missing so the one you love and there
ain't nothing truer than thoughts of love I'm thinking of
When I'm down, you're always there just to see me
through you understand everything that I do it's not a
wonder that I care for you, oh no it's not a wonder that I
care
