REAPPEAR

WRITERS STEPHEN HOUSDEN, GRAHAM GOBLE,
MALCOLM WAKEFORD

I wanna get to you - where did you go
Is there another world - that's part of you (is there another world),
when will you reappear
It's a mystery, it never happened before,
I looked up at the sky, you disappeared
through a door, was it imagination - my head wasn't clear,
now I keep wondering - when will you reappear.
I wanna get to you, where did you go, I need to know,
when will you reappear, is there another world, that's part of you,
I wish I knew, when will you reappear.
I was attracted to you by an unknown force, I'll find out where you come from -
I've got to get the source, but I get so dizzy in this atmosphere,
and now I'm wondering - when will you reappear
I wanna get to you, where did you go, I need to know,
when will you reappear, is there another world, that's part of you,
I wish I knew, when will you reappear.
I thought I knew you well - I didn't know you at all,
I let you take me up so high - that was my downfall,
but now you're gone and I'm waiting here,
can't you hear me callin' out - when will you reappear.
I wanna get to you, where did you go, I need to know,
when will you reappear, is there another world, that's part of you,
I wish I knew, when will you reappear,
I wanna get to you, where did you go, I need to know,
when will you reappear, is there another world, that's part of you,
I wish I knew, when will you reappear.
