SOUL SEARCHING

WRITERS GLENN SHORROCK, PETER BECKETT

I'm looking for something, can't find it anyplace, it's there in the distance, starin' me in the face, right in front of me, but it's way beyond my reach, and I know that I must try to find it. Doin' some soul searchin', lookin' for myself, soul searchin', Lord, I need a little help, soul searchin', 'cause time has slipped away, there's a dream I left behind in better days. The start of the story, is not where it all began, so many directions, all of them a part of the plan, I've heard too many voices, sayin' "this is the way to be free", but I know where I can find the answers. Doin' some soul searchin', lookin' for myself, soul searchin', Lord, I need a little help, soul searchin', 'cause time has slipped away, there's a dream I left behind in better days. Feeling the changes, there's something in the wind, gonna try to discover, life's romance again, lookin' for a loser, who tore it all apart, gonna take another look inside my heart. Doin' some soul searchin', lookin' for myself, soul searchin', Lord, I need a little help, soul searchin', 'cause time has slipped away, there's a dream I left behind in better days.
