"When I'm down,  
You're always there just to see me through  
You understand everything that I do  
It's not a wonder that I care for you  
And so babe, it's only fair we should hold on tight  
please be careful just to follow the light  
I promise everything will be alright

Oh, there ain't nothing sadder than missing so the one  
you love And there ain't nothing truer than thoughts of  
love I'm thinking  
of  
When you're down,  
I will be there, you can count on me

It's just so easy anyone can see  
It's not a wonder that you care for me

Oh, there ain't nothing sadder than missing so the one  
you love  
And there ain't nothing truer than thoughts of love I'm  
thinking of  
Dont you know?  
When I'm down, you're always there just to see me  
through  
You understand everything that I do  
It's not a wonder that I care for you,  
Oh no it's not a wonder that I care."
