L.A. in the sunshine
Or it's Denver and we're snow blind
All the palm trees on the skyline
It's a good day, it's a good time

Getting into all that I have seen
Getting off on everywhere I've been
What a shame down on the jet street
That we fell for the old country

Not impressed, man, we got ripped off
When we need next, they'll see the next star
I don't know how, I've made it this far
It seems like years, I've lost track of time

What can I say, when you smile
And say "Can we make it?
Or you'll fake it
What you say now, can we make it?"

Getting into all that I have seen
Getting off on everywhere I've been
Now I'm playin' ping pong, on a pub flight
Drinkin' champagne 'til after midnight

Oh, we flew high on a sweet dream
Happy landings, baby, where have you been?
I've been getting into all that I have seen
Getting off on everywhere I've been

Back to L.A. in the sunshine
After Denver when we got snow blind
All the palm trees on the skyline
She said, "Have a good day
Make sure you'll have a good time"
