Little Village

-----

Well a love won't last the night  
If it's built on sand  
But when it's built on rock  
Ain't nothin' that it can't withstand  
I guess you know by now how this story goes  
A very true story, take it from a fool who knows.  
I was high as a bird in the sky  
In the month of May  
With a true fine love all mine  
Forever and one day  
Now my eyes overflowin' with the memories such as  
those  
They're tear-stained memories, take it from a fool who  
knows.  
Now my tears are fallin' and I feel the pain  
Here comes all that hurt again  
But while my heart keeps beating  
I'll keep repeating  
The same mistakes that I made before  
The ones that made me walk the floor  
I got a sack full of those  
Take it from a fool who knows.  
Well my tongue's gettin' tired  
I been gettin' wired  
While my heart keeps beating  
I keep on repeating  
The same mistakes that I made before  
The ones that made love walk out the door  
I got a sack full of those  
That I'll keep diggin' into  
A lonesome road with a cold wind blowin'  
The path I chose, take it from a fool who knows.
