Good vibes, bad vibes - dance on the ocean
Man-made insanity's holding me down
Good vibes, bad vibes - a way of locomotion
I can show you, (I can) show you all around

Blue light, red light - drink a magic potion
One-track eternity's making me frown
Blue light, red light - bitter, sweet emotion
Won't you send me way up the underground

Hold tight, uptight waiting for the sunlight
All my enemies are watching me drown
Hold tightm uptight - I'm on the wrong side
I'm on camp site waiting on a silver cloud

Good vibes, bad vibes - dance on the ocean
Man-made insanity's holding me down
Good vibes, bad vibes - a way of locomotion
I can show you, show you all around
