

## Little Willie John "Over The Moon"

Visit "[Over The Moon](#)" on MotoLyrics.com

I was on my knees  
Crawling through the dry sahara  
I was breaking down  
Every wall standing in my way

And look what I found; the road to heaven

I'm over the moon  
Through featherly-light sky I fly  
I'm over the moon  
Since I found you

Crossing boundaries  
Between my old and new life  
Search the open field  
For a flower of my taste

And look what I found; the road to heaven

I'm over the moon  
Through featherly-light sky I fly  
I'm over the moon  
Since I found you

But I know  
What can't tear me down  
Makes me much stronger  
So it's good for something
