

## Little Willie John

### "Waves Of Green"

Visit "[Waves Of Green](#)" on MotoLyrics.com

Watching the tidals that wash to the shore - I never  
forget  
Into these silent waves of all times - eternally  
How long may this remain  
Peace to the land  
Nature and sea  
Silent emotions are overcome  
I wonder how  
We can go on  
Stormy times will we behold ?  
Do we still care  
What future holds  
So many words been said undone  
The waves of green  
They will flow on  
Heal me, free me - dawning is near  
Where is the saviour - for us to believe  
As I sit here - on Norge's shores  
Cries of the unheard - will they be heard  
The waves of green - whispering my name
