I can find no sleep, I never sleep at night
I stop counting sheep, I can see their eyes
And the lights will shine tonight

A fly's been watching me, a million dogs arrive
Some will cover me, some choose to bite
And the lights will shine tonight
And the lights will shine tonight

Then I will come to life
Then I will come to life
Then I will come to life

Won't you come with me, I can ease your mind
Dreams, thoughts, fantasies keep rushing by
And the lights will shine tonight

I can find no sleep, I never sleep at night
All those pretty sheep sit mesmerized
And the lights will shine tonight
And the lights will shine tonight

Then I will come to life
I can guarantee that I will come to life
I can guarantee that I will come to life
I can guarantee that I will come to life
