My dreams shimmer in my sleep  
Slow-burning ever-lasting fantasies

Even if you haven't found me yet I will find you  
If you wonder who's knocking on your door; it's me and  
there's no need to worry  
I shiver at your door but surely you don't have to hurry  
You've got all the time in the world  
All the time in the world

On the pavement of your favourite street  
Dressed in white hoping you will see... me  
Even if you haven't found me yet I will find you  
If you wonder who's knocking on your door; it's me and  
there's no need to worry  
I shiver at your door but surely you don't have to hurry  
You've got all the time in the world  
All the time in the world

If you wonder who's there  
I'm not an alien girl just walking by  
Just crossed your street
