The lighthouse lost it's light on her a long time ago She got so used to it, this long and winding road I'll never ever let you go, oh Oh no I can't believe she whispered to me This ship of fools sails west by night-time and by day I don't wanna breathe Come on home baby, where it's safe Circumnavigates her globe like a bullet gone astray I don't wanna breathe I don't wanna breathe I can't believe she whispered to me Even if you drink from the chalice of cheap escape and fade away I can't believe she whispered to me I don't wanna breathe I'll never ever let you go I don't wanna breathe She whispered to me Now I can't believe she whispered to me Oh lord, lord, lord
