When I was her and she was me  
We got along till we became ourselves  
When she was me and I was her  
We got along till we became ourselves  
Trampled in this rut divide our stuff, we're breaking up

You can't believe  
How much pain  
Called in my momma  
Every day

When I calmed down and saw the sun  
Put down the bottle, put down the gun  
I've had enough divide our stuff, we're breaking up  
When I was her and she was me  
We got along till we became ourselves

When she was me, ooh, yeah, oh, and I was her  
We got along till we became ourselves  
The hole has opened up  
Can I go down without my clothes  
Into the darkness of empty love?

We're breaking up  
We're breaking up  
Cheetah, cheetah  
Yeah, ooh, ooh, no, no, no
