Looking for desert rain,
In the corner's of my mind.
Feeling so far away,
From the source of love divine

Two travelers on the road
Just a book of secrets
And trouble on every side
Keep holding my hand tonight

As we face this furnace
Something tells me
That we can run from these flames
Or we can stand together in faith

Forever and ever
The darker the night
The brighter the dawn
Forever and ever
I'll stay here with you till the end of the storm
Till the end of the storm

Hey look what we've come from
Look what we've been through
Remember the times we were spared
Didn't know what to do
Didn't know what to do

The enemy's at the door
And here we are again, dÃ©ja vu
Now we can run from this place
Or we can stand together in faith

Forever and ever
The darker the night
The brighter the dawn
Forever and ever
I'll stay here with you till the end of the storm
OhOohh ohOoohh

Troubled times, they will come

With vengeance in spite of their eyes
Lords will be gods

Forever and ever
The darker the night
The brighter the dawn
Forever and ever
I'll stay here with you till the end of the storm
Forever and ever
Forever and ever

OhOohh ohOohh
