She should stay focused on her life
Don't pray to the left of her lie
And let your mind be free
These spasms feel all right
We've got Deepak Chopra rather clear
Now this one's come around to make some Iraqi
Sittin' around watchin' him jump for me
Move over, move over I can't see the fire
Sing, let go of me here, breathe for real
Long enough to see me cause . . .
We're still aroused
Not making love
Still aroused
Not making love
Somebody's shining to the light of love, yeah
She should stay focused on her life
To the gravity of the situation, no, no, no,
Man, we can do love, yeah, yeah,
If we quit loading stuff up, lookin' at we're . . .
There still aroused
Not making love

Still aroused

Not making love, yeah

Still Aroused

Not making love

Still Aroused

(Somebody's shining tot he light of love)

Girl . . .

To the Girl . . .

Yeah, yeah, yeah

Still aroused

Not making up

Still aroused

Not making more love

Still aroused, still aroused, still aroused

We're still aroused .
