Come on baby leave some change behind
She was a bitch, but I don't care
She brought our food out on time
And wore a funky barrette in her hair

Come on baby leave some change behind
She was a bitch but good enough
To leave some change
Everybody's good enough for some change

The girl's got family
She needs cash to buy aspirin for her pain
Everybody's good enough for some change
Some fucking change

Come on baby leave some change behind
She was a bitch, but I don't care
She brought our food out on time
And wore a funky barrette in her hair

Come on baby leave some change behind
She was a bitch but good enough
To leave some change
Everybody's good enough for some change

We all get the flu, we all get aids
We've got to stick together after all
Everybody's good enough for some change
Some fucking change

Come on baby
