When i met you you were eating ice cream
When we first met you fell upon your face
And now i can't get you outta my head
No i, i can't get you out of me
[CHORUS]
I'm falling and i can't get up now
I'm falling and i realize
That you're the one for me
And you have to be
Falling, falling for me too
This feeling is screwing me up
This feeling, i don't want it ever to stop
And now i can't get you outta my head
No i, i can't get you out of me
[CHORUS] x4
