If it's love that you want  
Baby you've got it  
From the depth of my soul  
Baby you've got it

But I've been watching you  
And I don't think that you're game  
There's no need to explain

Anyway that you want me  
Anyway that you'll take me  
Anyway that you'll make me be part of you  
Anyway that I know

There are dreams in your heart  
Where love lasts forever  
From the depth of my soul  
I'll make them come true

But I've been watching you  
And I don't think that your're game  
There's no need to explain

Anyway that you want me  
Anyway that you'll take me  
Anyway that you'll make me be part of you  
Anyway that I know

Anyway that you want me  
Anyway that you'll take me  
Anyway that you'll make me be part of you  
Anyway that I know

Anyway that you want me  
Anyway that you'll take me  
Anyway that you'll make me be part of you  
Anyway that I know...
