My God help me, rape the dead, your head severed,  
my cock  
To your face, cerebral cortex, tight as a cunt, I'll  
Fuck! Stick it inside the hole in your head, cum stained  
Brains now splatter my chest, guts and semen  
smeared on  
Your tits, I'm done! Fucking your brains into oblivion,  
Planting my seed between your eyes! Skull caves in  
Decaying mess, rancid body, full of shit, defecating  
Rotten crusty brains! Defecating rotten crusty brains! I  
Fuck your fucking skull! Rancid piece of meat, stinking  
From the burning sun, fetish for the sick, won't take  
Long for me to cum! Defecating rotten crusty brains
