[Bonus track]

Fetal, take me with your ax! Eviscerate the fetus that's left! Abortion by man made means, oozing, the Scabs they bleed! I grabbed her quick, stuck my dick in her face, said "Suck it bitch, if you want to Live!" Young girls are what we crave, strangled on a noose, skewered and filleted! All around bodies Burn to ash, anguish and torment, your pretty little face we smash! Beating the fetus, 'til it's dead, "Why won't you die?!" Picking the scabs off her head, pumping faster, pumping deep, my thick Cock meets tight young meat! Spread your legs and you'll receive, remove the scabs and watch them Bleed! I grabbed her quick, stuck my dick in her face, said "Suck it bitch, if you want to live!"
