In the dead night I seek
Virgins smell good to me
So pure and innocent
Sacrificial bliss

Conjure powers to stay
Unholy mass I pray
Uncontrolled urge I feel
Art of blasphemy

Guide us tonight we share
Everlasting darkness
Immortal army comes
Lucifer's legion

Bloody dusk of chaos
Crossing the burning path
The bleeding crucifix
To destroy Christian race

Satanic
Salvation
Is calling
You from another world

Unholy
Redemption
Is burning
Christian faith abandon

Kissing the steel
Visit the reaper
Anguish and despair
Darkness engulfs you
In for the kill
Never ending hate
Confined to Hell
Demons rise up
Witness witching hour

Blades marking skin

For our sacrifice
To sustaining freedom

Horned heathen lurking
Over ripping flesh
Pentagram held high

Blasphemous codes
Chanted in the night This is what I seek

Eternal fires
Burning bright
Caldron of blood
Drink to rejoice

Wings in the dark
Soar through the air
Servant's of Hell
Open the gates

Denouncing Christ
As a savior
No messtah
Hangs on the cross

A grave land of death
Unholy cult
Take your last breath
Body and soul...
...are now set free

Satanic
Salvation
Is calling
You from another world

Unholy
Redemption
Is burning
Your life is now set free
