Stupid whore, no one cares  
No one will, one more dead  
Can't be saved, grab and kill  
All should die, this one will

Vaginal odor, stench in the air  
Butchery, molesting, rape with no care  
Crush her face, violate  
Sodomize, full of hate

Give her blades as I watch  
Forced entry with my cock  
Piece of trash you will bleed  
Fucking cunt, done my deed

Vaginal odor, stench in the air  
Butchery, molesting, rape with no care  
Crush her face, violate  
Sodomize, full of hate

Cutting out, uterus, with a piece of broken glass  
Hemorrhaging, taking, only what I need  
Bleeding out, life is drained, right before my eyes  
Emptied out, gutted slut, this is what I lust
