[Bonus track]

Open wide your geasy hole, sit down on my throbbing pole, pumping faster in and out, your anus tears, You scream and shout! Pulling out covered with shit, licking clean my big 'ol dick, between your legs I Start to lick, ripping and tearing I bite your clit! Your face is covered with my spew, tearing off, your Nipples I chew, licking at your ass and crack, I dig the knife into your back! Cutting quick I eat your Snatch, focus on my horrid task! Fucked like never before or you'll ever be again, decide what's your Pleasure, the ass or the slimy cunt, does not matter to me! I shall masturbate on your shallow grave, When my work is done your hole will be torn! Beating with my fist, probing with a stick, cutting out Your clit, chewing on your lips! Orfice reconstruct, shame on your whole world, morbid fantasy, sexual Release! Swolen glands about to burst from my head the semen spurts! Squirting on the ass and thighs, Probing deep I peer inside! She sucked it hard, I sat and watched, when she finished, I slit her throat!
