[Bonus track]

Picked you up, in the dead of night, for a long time
been in my sight! My hands are sweaty, and I'm
Horny, don't speak a word, you'll just bore me!
Trapped inside, can't get out, rip your face, you can't
Shout! Tied you down, had my way I just wanted, to get
laid! Fucked you hard and now I'm done,
Didn't take long for me to cum! Roll you over, sinister
grin, tearing apart, I now begin! Killed you fast,
The meat is fresh, full course meal for my lunch!
Slicing into you looked good, cook the eyes, think I
Could?! Still moving, lifeless creature spawn, mistreat
the tampered flesh! Sodomize eagerly, slapping
My cock on, your bare skull! Thick jism splashes you,
scent of vesceration, masturbation, ejaculation,
Boy this is fun! I put you in the tup, bathe with your
stub! Still moving, lifeless creature spawn,
Mistreat the tampered flesh!
