"If We Make Love Tonight"

Visit "[If We Make Love Tonight](#)" on MotoLyrics.com

Let's make it happen
Let's make it happen, baby
Let's make it happen
Let's make it happen, baby

If we make love tonight
Will it change us for the rest of our lives?
Let's make it happen
Let's make it happen, baby

If we make love tonight
For the very first time
Let's make it happen
Let's make it happen, baby

Here we are alone again
But we never kicked it like this before
We never kicked it like this before

Ooh, the touchin', the kissin' and the huggin', baby
I must confess I want to explore
We've been homies for so long
I just can't calculate the time

But if we make love tonight
Will it change the way we are?
The question remains on my mind
I wanna know

If we make love tonight
Will it change us for the rest of our lives?
Let's make it happen
Let's make it happen, baby

If we make love tonight
For the very first time
Let's make it happen
Let's make it happen, baby

I call you on the phone each day
I must admit you're my best friend
But I can't ignore my attraction to you

Are you the man for me, tell me what's in store

You know my darkest secrets
And I know a few things about you too
We're puttin' our friendship on the line
But I wanna get next to you, baby, all I wanna know

If we make love tonight
Will it change us for the rest of our lives?
Let's make it happen
Let's make it happen, baby

If we make love tonight
For the very first time
Let's make it happen
Let's make it happen, baby

You know, we've been homies for awhile
Kickin' and everything and
I think it's time for us to take this relationship to another
level
So, what I wanna know is

Do you wanna make love to me, baby?
But I know
'Cause I wanna make love to you
Tell me if it's wrong

Do you wanna make love to me, baby?
But I know
'Cause I wanna make love to you, baby
But I know

Do you wanna make love to me, baby?
But I know
'Cause I wanna make love to you
Tell me if it's wrong

If we make love tonight
Will it change us for the rest of our lives?
