Let me take off
Pick up baby
Pick up
And if you sleeping baby
Get up
I need you here to make me moan
Put me in the zone
But I'm here alone
I need you next to me
But you aint here to get it so I
I dial them digits and I
I know you with it
Tell me how you wanna hit it
If you could boo
Tell me what you would do
Are you gon make me cum
Ooh yea yea

We having phone sex
And I cant touch you
I cant hold I cant squeeze you
I cant love you like I want to
Phone sex
When nights are crazy and I
Cant have my baby and I'm
Used to it daily
Having phone sex
See I'm gon act like you were right here
Freaking like I don't care
We're having phone sex
Baby when your not home
Phone sex

You know I love when you explode between my thighs
Stand there winding back before you come inside
Gonna suck on your lips and then I'll take it low
Yes, against your hips ride up on you slow
Yeah like that like that just keep on touching me
Like that like that tell me how you want
The way you loving me makes my body scream
This feels so real to me
I just cant believe we're only having

Phone sex
And I cant touch you
I cant hold I cant squeeze you
I cant love you like I want to
Phone sex
When nights are crazy and I
Cant have my baby and I'm
Used to it daily
Having phone sex
See I'm gon act like you were right here
Freaking like I don't care
We're having phone sex
Baby when your not home
Phone sex

Oh
I need your right now
Sit you right here
Touch Mmm me
Ooh do it to me
Like that Ooo
Ha ha
I like it when we have phone sex

Phone sex
And I cant touch you
I cant hold I cant squeeze you
I cant love you like I want to
Phone sex
When nights are crazy and I
Cant have my baby and I'm
Used to it daily
Having phone sex
See I'm gon act like you were right here
Freaking like I don't care
We're having phone sex
Baby when your not home
Phone sex
