

Living Death

"English Army"

Visit "[English Army](#)" on MotoLyrics.com

Secret runaway
Just on their own
Heading for a brighter day
The future's now unknown
There's no way, no way

Just like the English army
I'm not saying I know what's right
My life is not for you
And they're not going to take me tonight

Try to runaway
Nowhere to hide
Nowhere to stay
Your future's now unknown
There's no way, no way

Just like the English army
I'm not saying I know what's right
My life is not for you
And they're not going to take me tonight

Secret runaway
Just on their own
Heading for a brighter day
Your future's now unknown
There's no way, no way

Just like the English army
I'm not saying I know what's right
My life is not for you
And they're not going to take me

Just like the English army
I'm not saying I know what's right
My life is not for you
And they're not going to take me tonight
