

Living Death

"How Do We Know?"

Visit "[How Do We Know?](#)" on MotoLyrics.com

We've been waiting
On the front line
We've been preparing our entire lives
For this day to arrive

And no doubt this will be
All about history
We're making our move
And we're breaking out on the grind

Today the new age
Will rise up
Stare our case,
Throw it down

And after the rain
The only ones that still remain
Standing proud
Separating from the crowd

(How do We Know)
Turn on the light
(How do We Know)
I need to decide
(How do We Know)
Because we may not survive tonight
(How do We Know)
I'll take my chance
(How do We Know)
Spare me the romance
(How do We Know)
We'll give it all that we can
(How do We Know)

New information
Coming down the line
But as far as I can tell
It's just the blind leading the blind

I've seen frustration
Written in the eyes

All the disinfected race
Being brought back in time

Today the new age
We'll rise up
Stare our case,
Throw it down

And after the rain
The only ones that still remain
Standing proud
Separating from the crowd

(How do We Know)
Turn on the light
(How do We Know)
I need to decide
(How do We Know)
Because we may not survive tonight
(How do We Know)
I'll take my chance
(How do We Know)
Spare me the romance
(How do We Know)
We'll give it that all we can
(How do We Know)
Today will be the last day
Tomorrow everything will change

(How do We Know)
Turn on the light
(How do We Know)
I need to decide
(How do We Know)
Because we may not survive tonight
(How do We Know)
I'll take my chance
(How do We Know)
Tell me the roman
(How do We Know)
We'll give it all we can
(How do We Know)
Today will be the last day
Tomorrow everything will change
