You may think that I don't know
About your sleazy tabletop show
You may think I won't agree
About your secret fantasy
Don't you think I wonder where you are?

But I don't
The way you know me
The way you show me
It really turns me on
The way you know me
The way you show me
It really turns me on

I've seen your picture on the wall
I don't really mind at all
You may think I'd be ashamed
But for me it's just a horny game
Don't you think I wonder where you are?
Coming nearer can you feel me?
Coming closer can you feel me?
